

## What Medical Students Say about our Program

The following is a recap of previous orthopedic rotations with Tahoe Orthopedic and Sports Medicine based on the following attributes:

- ❖ Aggregate scores of orthopedic attendings:
- ❖ Knowledgeable and Analytical
- ❖ Clear and organized
- ❖ Actively involved me in learning experiences
- ❖ Provided direction and feedback
- ❖ Demonstrated clinical skills and procedures
- ❖ Communicates learning objectives
- ❖ Illustrates and stimulates problem solving
- ❖ Interpersonal skills (communication skills, empathy, care and concern)
- ❖ Professional characteristics (ethical, respectful, flexible, role modeling)
- ❖ Motivated and enthusiastic
- ❖ Accessible and available
- ❖ Overall teaching effectiveness

Out of 37 students that have rotated with our Orthopedic Attendings from 2012-2016 our physicians have a cumulative score of **4.85** out of a possible **5.0** score.

Some of the comments received by these students:

- ❖ He always challenged me and taught me relevant preoperative, intraoperative and postoperative aspects of solid patient care
- ❖ Highly respected by all his patients. He is profoundly ethical and honest with his patients
- ❖ Great communicator, flexible and always maintained professional
- ❖ He is readily accessible, very approachable
- ❖ He taught me to be thorough in my H&P skills
- ❖ Best clinical experience I was a part of
- ❖ He allowed me to be very hands on with the patients and procedures
- ❖ Excellent preceptor, with very clear explanations and expectations
- ❖ He furthered my ability to interpret imaging and increased my comfort with outpatient procedures
- ❖ Busy clinical practice allowing for a good variety
- ❖ Always made sure I was involved in the OR
- ❖ Gave me relevant reading topics to guide my learning according to what we were doing
- ❖ He helped me so much with my musculoskeletal exam skills and diagnosis of common ortho complaints
- ❖ I learned a lot about bedside manner
- ❖ It was a great rotation that will get me off on the right foot as I transition into residency
